Allowable Subject Matter

1. Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims are allowable over the prior art of record since the cited references taken individually or in combination fails to particularly disclose A method of providing data for transmission on a time division multiplexed (TDM) serial data stream, the method comprising: mapping channels of the TDM stream to contexts, each context comprising a set of memory buffers for storing data to be transmitted; extracting data from the contexts in a sequence defined by said mapping and transmitting the extracted data on the TDM stream; when a buffer or buffers of a context become empty, generating a buffer refill request to cause data to be read from a memory to refill the buffer, wherein each buffer refill request is assigned a priority; and handling buffer refill requests according to their relative priorities to refill the context buffers.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
